

TruGlu™

Automated Pattern Assembly

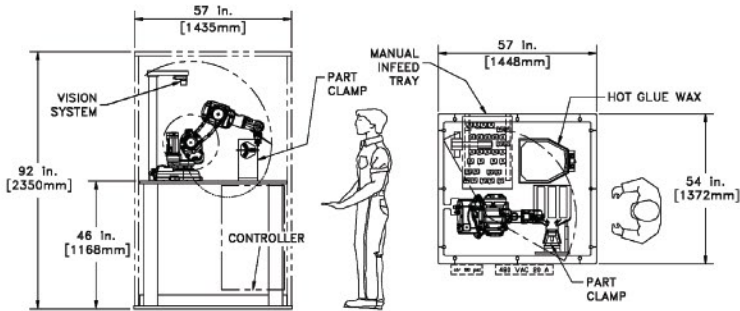

Our experience and expertise in providing robotic solutions in automation provides reliable, consistent results in Pattern Assembly.

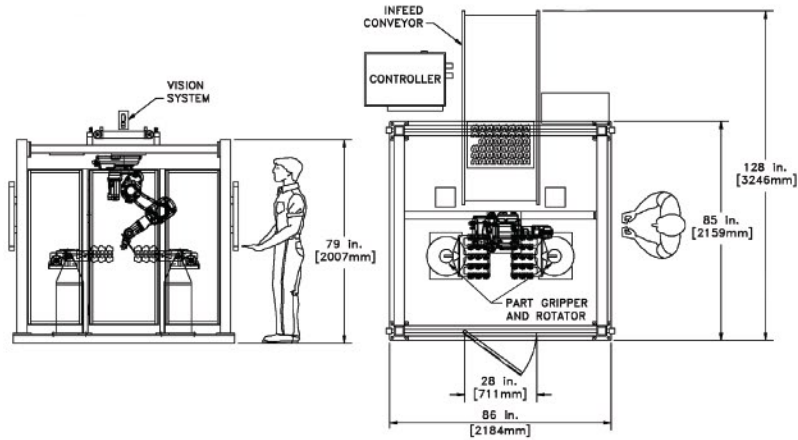

TruGlu™

Automated Pattern Assembly

MODEL 141

MODEL 142i

Features Include:

- Flexible system designed for short and long production runs
- Use existing tree and part tooling without modification
- Vision system eliminates the need for part specific fixturing
- Existing trays can be used
- Expandable for increased throughput
- Torch sealing of joints
- System interlocked for safety
- For complicated parts, additional manipulation available
- Easy access for quick inspection and maintenance
- One gripper designed to handle families of parts
- Multiple assembly positions
- Multiple glue wax stations
- Less than 1 day installation time
